REFURBISHED MOBILITY DEVICES AVAILABLE FROM CREATE

April 26, 2010 by cpehrson

CReATE is part of the Utah Assistive Technology Program at the Center for Persons with Disabilities. The purpose of CReATE is to refurbish mobility devices and provide them at a low cost to people who might not receive them otherwise. These devices are donated and restored at a warehouse in Salt Lake City, where certified technicians make sure they are safe, dependable and available.

The cost of mobility devices can run into thousands of dollars, and may take many months to get into the hands of those who need them. CReATE cuts down on the cost and the waiting time by making them readily available to individuals .

To view CReATE's updated refurbished inventory, visit their website. If you do not see a device on the inventory that will fit your needs, contact CReATE at (801) 887-9398. There are many more devices that have not been refurbished yet.

To acquire a device, follow the steps below:

1. Contact the CReATE staff at (801) 887-9398.
2. The CReATE office coordinator will take down necessary information.
3. The interested person will be contacted to set up an appointment for an evaluation.
4. After the evaluation the CReATE inventory will be reviewed to determine if there is an appropriate device.

To donate a device, you can contact that CReATE staff at 801-887-9398. The CReATE office coordinator will discuss the procedure for making a donation.
